

RSAC 2022

Attending FIDO Member Guide

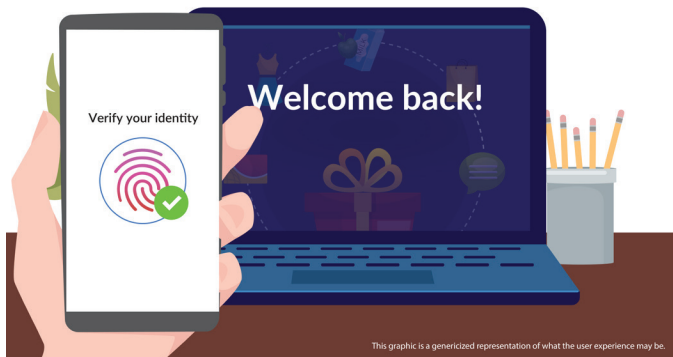

fido[™]
ALLIANCE | simpler
stronger
authentication

fidoalliance.org

Welcome to RSA Conference 2022!

We've put together this guide to help you find and connect with attending FIDO Alliance members with certified products and services. Each entry describes the attending member company, what industries they serve, associated products, and how to get in touch. You can find more FIDO Certified members and products on the FIDO Alliance website at www.fidoalliance.org/fido-certified-showcase.

FIDO RSAC Seminar: The Industry's Path Towards a Passwordless Future

With much talk about shifting to passwordless authentication, many want to know – are we there yet? Join the FIDO Alliance for a half-day seminar to explore the current state of authentication and see what's in store for the future. Hear from leading industry stakeholders including Google, Microsoft and more to see how they are bringing their vision for a passwordless future to fruition. Plus, see the first live demo of multi-device FIDO credentials in action!

Tuesday, June 7, 2022 // 1:15 - 5:15 pm
Moscone South 216

Akamai

Booth #S-0655

Contact:

sales@akamai.com

Website:

akamai.com

Make phish-proof authentication as easy as a mobile push. Akamai MFA delivers all of the benefits of FIDO2 but without the costs and complexities of hardware security keys or platform authenticators. Deliver a frictionless and delightful user experience through an intuitive mobile app.

Associated products

Biometrics, Identity Proofing, Mobile Apps, Passwordless, Security Keys, Secure Remote Access, FIDO2-based MFA on a mobile app

Industries

Enterprise, Financial Services, Payments, Telecom, Mobile, Government, Healthcare, Insurance

Egis Technology Inc.

Contact:

Karen Chang, karen.chang@egistec.com

Website:

egistec.com

Egis Technology Inc. is the leader of the identity technology company which provides AI based types of security solutions such as capacitive type of fingerprint, optical type of fingerprint, and facial recognition solution for online authentication.

Associated products

Biometrics, FIDO Server,
Passwordless, SDK, Security Keys

Industries

Financial Services, Payments,
Telecom, Mobile, Government,
Healthcare, Insurance

FEITIAN Technologies

Booth #S-1727

Contact:

contact@ftsafe.us

Website:

ftsafe.us

FEITIAN has firmly accumulated strengths in quickly grasping the demand of different markets as well as rapidly development and deployment through the combination of client-side hardware, software products and service technology, all of these core competencies will enable FEITIAN to effectively follow through on any new idea or requirement of FIDO standardized strong authentication products and satisfy the user's needs to greatest extend.

Associated products

Biometrics, Blockchain, FIDO Server,
IoT, Mobile Apps, Passwordless,
SDK, Security Keys, Secure
Remote Access

Industries

Enterprise, Financial Services,
Payments, Healthcare, Insurance,
Education

HID Global

Booth #S-3232

Contact:

iamsinfo@hidglobal.com

Website:

<https://campaigns.hidglobal.com/zerotrust>

HID Global powers the trusted identities of the world's people, places and things, allowing people to transact safely, work productively and travel freely. Visit www.hidglobal.com.

Associated products

IoT, Passwordless, Security Keys,
Secure Remote Access

Industries

Enterprise, Financial Services,
Payments, Government, Healthcare,
Insurance

HYPR

Contact:

info@hypr.com

Website:

hypr.com

HYPR is a member of the FIDO alliance. Our products are FIDO certified end-to-end. We align with the OMB and CISA statements that FIDO is the gold standard when it comes to passwordless MFA.

Associated products

Biometrics, Identity Proofing,
IoT, Mobile Apps, Passwordless,
PSD2, SDK, Security Keys, Secure
Remote Access

Industries

Enterprise, Financial Services,
Payments, Government, Healthcare,
Insurance, Critical Infrastructure

Hyweb Global Technology Co. Ltd

Contact:

David Lai, david@hyweb.com.tw

Website:

hyweb.com.tw

HYweb
HYWEB TECHNOLOGY CO., LTD

Hyweb has three teams of Fido product, R&D and system integration. With Fido certified products and solution, Hyweb has implemented Fido solutions in several government and banking reference successfully.

Associated products

Enterprise, Financial Services,
Payments, Government, Healthcare,
Insurance

Industries

Enterprise, Financial Services,
Payments, Government, Healthcare,
Insurance

Identiv

Contact:

apellegrino@identiv.com

Website:

identiv.com

We bring make FIDO accessible for all. Eliminate the risk of data breaches, phishing, password theft, and replay attacks with hardened multi-factor authentication cybersecurity. Passwordless logins are simple and secure with uTrust FIDO2 Security Keys. Insert the device, tap the button, and get secure access. It really is that easy.

Associated products

Identity Proofing, IoT, Mobile Apps, Passwordless, Security Keys, Secure Remote Access

Industries

Enterprise, Financial Services, Payments, Telecom, Mobile, Government, Healthcare, Insurance, Commercial

IDmelon Technologies Inc.

Booth #ESE-11

Contact:

Bahram@idmelon.com

Website:

idmelon.com

As an official member of both FIDO Alliance and Microsoft Intelligent Security Association (MISA), we are on a journey to reduce friction for implementing and using passwordless authentication in companies, systems as well as individual use cases. We targeted obstacles of using FIDO2 hardware security keys and tried to remove these barriers.

Associated products

Mobile Apps, Passwordless,
Security Keys

Industries

Enterprise, Healthcare, Insurance

Nok Nok

Contact:

Jackie Comp, jcomp@noknok.com

Website:

www.noknok.com

Nok Nok, a pioneer in creating the FIDO standards, empowers companies to transform their customer experiences, transactions, processes, and workflows to modern identity and passwordless authentication. The Nok Nok S3 Suite offers the most scalable and feature-rich passwordless solution and integrates into existing system-level workflows and legacy security infrastructure. Companies that implement our next-gen passwordless platform experience authentication success rates above 99%, onboarding conversion improvements of 20% or more, 90% reduction in account recovery requests, and significantly reduced OPEX.

Associated products

Biometrics, Blockchain, FIDO Server, IoT, Mobile Apps, Passwordless, PSD2, SDK

Industries

Enterprise, Financial Services, Payments, Telecom, Mobile, Government, Healthcare, Insurance, Customer Authentication

PONE Biometrics

Contact:

Jorgen Svare, js@ponebiometrics.com

Website:

ponebiometrics.com

PONE Biometrics is supplying a FIDO2 based security key. We use fingerprint biometrics to identify the user. The security key has a smart card form factor and can also be used as physical access card on doors and gates.

Associated products

Biometrics, Passwordless,
Security Keys

Industries

Enterprise, Financial Services,
Payments, Telecom, Mobile,
Government, Healthcare, Insurance

Yubico

Booth #S-3300

Contact:

www.yubico.com/contact-us

Website:

www.yubico.com

Yubico is a creator and core contributor to the FIDO2, WebAuthn, and FIDO Universal 2nd Factor (U2F) open authentication standards, and is a pioneer in delivering modern, hardware-based authentication security at scale. YubiKeys are the gold standard for phishing-resistant multi-factor authentication (MFA), enabling a single device to work across hundreds of consumer and enterprise applications and services.

Associated products

Biometrics, Passwordless,
Security Keys

Industries

Enterprise, Financial Services,
Payments, Telecom, Mobile,
Government, Healthcare, Insurance,
Consumer; Education; Energy,
Utilities, Oil & Gas; Manufacturing;
Pharmaceuticals; Retail, Hospitality

1Kosmos

Contact:

Michael Cichon, michaeljcichon@1kosmos.com

Website:

<https://www.1kosmos.com>

We are a FIDO alliance member and are working to further their passwordless objectives. What we bring to the table is a combination of strong identity (government-certified biometric and document verification) and an easy-to-use, easy-to-develop platform. Mobile and Web developers can test and implement our FIDO libraries in minutes and even try it online with an amazing developer experience (see <https://developer.1kosmos.com/devportal/docs/webauthn>).
